SZONJA ZSIROS
CAREER & JOB SEARCH ADVISORY

Welcome

Hey there, I'm Szonja!

I'm your dedicated ally in this exhilarating roller coaster of personal and professional growth. My mantra says that having a job and having a fulfilling job are not the same. I am here to assist you in becoming the person who embodies the latter.

Some say that coaching is about working with people who have problems. In my view, coaching is about working with people who want to reconnect with themselves in order to pursue a life that brings them more joy.

My approach combines coaching and advising. We'll apply the former to rediscover certain aspects of your life and we'll make use of the latter to translate everything into practice.

Ready to turn your life upside down - in the best way possible?

Can't wait to start working
